

We can also modify the thought process of Ptolemy, by changing the bounds system, the house system, Arab or Ptolemaic Pars Fortunae and the almuten system by which to choose Who rules the Hyleg id est Who is the Alcocoden.

If we change the house-system to Sign-House system then a different picture emerges:

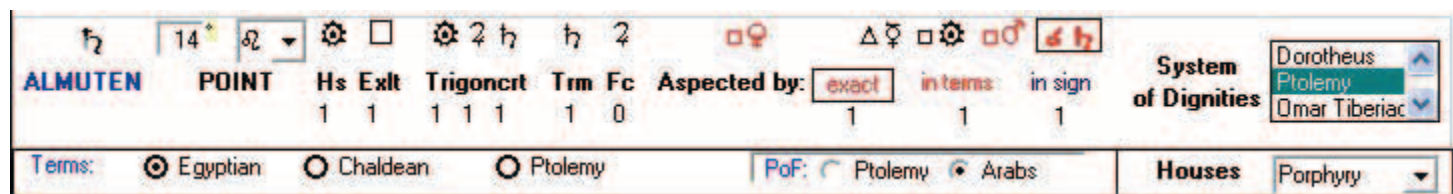

house	Almuten of the Day	Candidate in 10.1.11.7.9	visible	Candidate HYLEG	Power of house position	Own Sect	HYLEG
8	2	X	3				
4	5	X	2				
LORDS of ASC # of dignities: must be >= 2		LORDS of ASC # of dignities: must be >= 2					
11	6	11	7		3		
4	6	X	4				
8	3	X	4				
8	6	X	2				
7	3	7	6				
9		9					

Here Saturn is the clear winner from the very beginning as he alone is in a house proper for a Hyleg to be.

After Porphyrius Magus found the Hyleg- the Life-Source of Hitler- according to Ptolemy, now he is leading us to the Guarding Angel of Hitler (the planet with dignities in the place of the Hyleg that is the Alcocoden)

Here we can see that in the almuten-system of Ptolemy, Saturn and the Sun are the possible alcocodens of the hyleg- Saturn.

Both have 2 ruling powers in 14 Leo

In the end, Saturn is chosen because he is the Hyleg and because of his more powerful position in house and zodiacally.

In this way, now Saturn claims the wings of the Guarding Angel- the celestial being who took the soul of Hitler from the Hyleg (Saturn) [himself] and brought it to Earth in the time of the conception.
